

# Edit Observers

[See Video Tutorial](#)

You can designate three types of Observers for your trips:

- Emergency Observers are Emergency Contacts where you have activated the Can Observe tag and will be able to view you in any trip you are currently on
- Trip Observers are designated by the Trip Owners and can view all participants in a trip
- Personal Observers are observers designated by participants and can view only those participants who have designate them

On selecting Observers or Personal Observers in the Edit or View Screen the following screen is displayed:

The screen shows a list of Observers whom you have invited for the trip. In Edit mode you can add a participant or edit a participant details by tapping on the participant name.

When you select Add Observers the following screen is displayed:

The screen shows a list from your phone contacts, you can search for a name in your contact book or if the person is not on your contact list you can search for the name, email id or phone number entered by tapping on Search Traeser users button

If a contact is selected from the contact list the app will ask you to confirm the phone number and a

message will be sent to the phone.

Once added the Observer able to view the riders in the [View](#) screen.
